Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2019

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-36062

CINER RESOURCES LP

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of
Incorporation or Organization)

46-2613366

(I.R.S. Employer
Identification No.)

**Five Concourse Parkway
Suite 2500**

Atlanta, Georgia 30328

(Address of Principal Executive Offices) (Zip Code)

Registrant's telephone number, including area code: **(770) 375-2300**

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of each exchange on which registered</u>
Common units representing limited partnership interests	CINR	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes No

The registrant had 19,738,407 common units and 399,000 general partner units outstanding at May 3, 2019, the most recent practicable date.

TABLE OF CONTENTS**

References in this Quarterly Report on Form 10-Q (“Report”) to the “Partnership,” “CINR,” “Ciner Resources,” “we,” “our,” “us,” or like terms refer to Ciner Resources LP and its subsidiary, Ciner Wyoming LLC, which is the consolidated subsidiary of the Partnership and referred to herein as “Ciner Wyoming”. References to “our general partner” or “Ciner GP” refer to Ciner Resource Partners LLC, the general partner of Ciner Resources LP and a direct wholly-owned subsidiary of Ciner Wyoming Holding Co. (“Ciner Holdings”), which is a direct wholly-owned subsidiary of Ciner Resources Corporation (“Ciner Corp”). Ciner Corp is a direct wholly-owned subsidiary of Ciner Enterprises Inc. (“Ciner Enterprises”), which is a direct wholly-owned subsidiary of WE Soda Ltd., a U.K. corporation (“WE Soda”). WE Soda is a direct wholly-owned subsidiary of KEW Soda Ltd., a U.K. corporation (“KEW Soda”), which is a direct wholly-owned subsidiary of Akkan Enerji ve Madencilik Anonim Şirketi (“Akkan”). Akkan is directly and wholly owned by Turgay Ciner, the Chairman of the Ciner Group (“Ciner Group”), a Turkish conglomerate of companies engaged in energy and mining (including soda ash mining), media and shipping markets. All of our soda ash processed is sold to various domestic and international customers including American Natural Soda Ash Corporation (“ANSAC”), which is currently an affiliate for export sales.

CINER RESOURCES LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. CORPORATE STRUCTURE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The unaudited condensed consolidated financial statements are composed of Ciner Resources LP (the “Partnership,” “CINR,” “Ciner Resources,” “we,” “us,” or “our”), a publicly traded Delaware limited partnership, and its consolidated subsidiary, Ciner Wyoming LLC (“Ciner Wyoming”), which is in the business of mining trona ore to produce soda ash. The Partnership’s operations consist solely of its investment in Ciner Wyoming. The Partnership was formed in April 2013 by Ciner Wyoming Holding Co. (“Ciner Holdings”), a wholly-owned subsidiary of Ciner Resources Corporation (“Ciner Corp”). Ciner Corp is a direct wholly-owned subsidiary of Ciner Enterprises Inc. (“Ciner Enterprises”), which is a direct wholly-owned subsidiary of WE Soda Ltd., a U.K. corporation (“WE Soda”). WE Soda is a direct wholly-owned subsidiary of KEW Soda Ltd., a U.K. corporation (“KEW Soda”), which is a direct wholly-owned subsidiary of Akkan Enerji ve Madencilik Anonim Şirketi (“Akkan”). Akkan is directly and wholly owned by Turgay Ciner, the Chairman of the Ciner Group (“Ciner Group”), a Turkish conglomerate of companies engaged in energy and mining (including soda ash mining), media and shipping markets. The Partnership owns a controlling interest comprised of 51.0% membership interest in Ciner Wyoming. All of our soda ash processed is currently sold to various domestic and international customers, including ANSAC which is an affiliate for export sales.

Basis of Presentation and Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“GAAP”) applicable to interim period financial statements and reflect all adjustments, consisting of normal recurring accruals, which are necessary for fair presentation of the results of operations, financial position and cash flows for the periods presented. All significant intercompany transactions, balances, revenue and expenses have been eliminated in consolidation. The results of operations for the three month periods ended March 31, 2019 and 2018 are not necessarily indicative of the operating results for the full year.

These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes to audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2018 (the “2018 Annual Report”). As of January 1, 2019, we have adopted the guidance outlined in Accounting Standards Codification (“ASC”) Standard 842, Leases (“ASC 842”). For further information on the Partnership’s adoption of this standard, refer to “Recently Issued Accounting Pronouncements” below. There have been no other material changes in the significant accounting policies followed by us during the three month period ended March 31, 2019 from those disclosed in the 2018 Annual Report.

Non-controlling interests

NRP Trona LLC, a wholly-owned subsidiary of Natural Resource Partners L.P. (“NRP”), currently owns a 49.0% membership interest in Ciner Wyoming.

Use of Estimates

The preparation of these unaudited condensed consolidated financial statements, in accordance with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the dates of the unaudited condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

We have evaluated subsequent events through the filing date of this Quarterly Report on Form 10-Q.

Recently Issued Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-02, Leases (Topic 842) to increase the transparency and comparability about leases among entities. Additional ASUs have been issued subsequent to ASU 2016-02 to provide supplementary clarification and implementation guidance for leases related to, among other things, the application of certain practical expedients, the rate implicit in the lease, lessee reassessment of lease classification, lessor reassessment of lease term and purchase options, variable payments that depend on an index or rate and certain transition adjustments. ASU 2016-02 and these additional ASUs are now codified as ASC 842. Pursuant to these updates, accounting for leases by lessors remains largely unchanged from current guidance. The update requires that lessees recognize a lease liability and a right of use asset

for all leases (with the exception of short-term leases) at the commencement date of the lease and disclose key information about leasing arrangements. For leases less than 12 months, an entity is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. If a lessee makes this election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. The Partnership made this election upon adoption. In preparation for the new requirements, the Partnership completed its evaluation of the lease agreements during 2018. The Partnership adopted ASC 842 effective January 1, 2019 using a modified retrospective approach under which prior comparative periods will not be adjusted, as permitted by the guidance. The Partnership has determined that the adoption of the new standard did not have a material impact on the balance sheet or statement of operations because the Partnership has no material long term leases that are subject to ASC 842. Ciner Corp was determined to be the ultimate lessee for rail car lease agreements under ASC 842, and the Partnership will continue to incur an allocation of rent expense in relation to the use of rail cars leased by Ciner Corp.

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (“ASU Topic 815”) – Targeted Improvements to Accounting for Hedging Activities. ASU Topic 815 aims to improve the financial reporting of hedging relationships to better portray the economic results of an entity’s risk management activities in its financial statements. In addition, ASU Topic 815 makes certain targeted improvements to simplify the application of the existing hedge accounting guidance. ASU Topic 815 is effective for us beginning in the first quarter of 2019, with early application permitted. The Partnership adopted ASU Topic 815 effective January 1, 2019 and concluded there is no material impact to the Partnership’s consolidated financial statements.

2. NET INCOME PER UNIT AND CASH DISTRIBUTION

Allocation of Net Income

Net income per unit applicable to limited partners is computed by dividing limited partners’ interest in net income attributable to Ciner Corp, after deducting the general partner’s interest and any incentive distributions, by the weighted average number of outstanding common units. Our net income is allocated to the general partner and limited partners in accordance with their respective partnership percentages, after giving effect to priority income allocations for incentive distributions, if any, to our general partner, pursuant to our partnership agreement. Earnings in excess of distributions are allocated to the general partner and limited partners based on their respective ownership interests. Payments made to our unitholders are determined in relation to actual distributions declared and are not based on the net income allocations used in the calculation of net income per unit.

In addition to the common units, we have also identified the general partner interest and incentive distribution rights (“IDRs”) as participating securities and use the two-class method when calculating the net income per unit applicable to limited partners, which is based on the weighted-average number of common units outstanding during the period. Potentially dilutive and anti-dilutive units outstanding were immaterial for both the three months ended March 31, 2019 and 2018 .

The net income attributable to limited partner unitholders and the weighted average units for calculating basic and diluted net income per limited partner units were as follows:

<i>(In millions, except per unit data)</i>	Three Months Ended March 31,	
	2019	2018
Numerator:		
Net income attributable to Ciner Resources LP	\$ 12.3	\$ 10.1
Less: General partner’s interest in net income	0.2	0.2
Total limited partners’ interest in net income	<u>\$ 12.1</u>	<u>\$ 9.9</u>
Denominator:		
Weighted average limited partner units outstanding:		
Weighted average common units outstanding (basic and diluted)	<u>19.7</u>	<u>19.6</u>
Net income per limited partner units:		
Net income per limited partner units (basic and diluted)	\$ 0.61	\$ 0.51

The calculation of limited partners' interest in net income is as follows:

<i>(In millions)</i>	Three Months Ended March 31,	
	2019	2018
Net income attributable to common unitholders:		
Distributions ⁽¹⁾	\$ 6.7	\$ 11.1
Undistributed earnings (Distributions in excess) of net income	5.4	(1.2)
Common unitholders' interest in net income	<u>\$ 12.1</u>	<u>\$ 9.9</u>
⁽¹⁾ Distributions declared per common unit for the period	\$ 0.340	\$ 0.567

Quarterly Distribution Declared

On May 10, 2019, the Partnership declared its first quarter 2019 quarterly cash distribution of \$0.340 per unit. The quarterly cash distribution is payable on May 24, 2019 to unitholders of record on May 21, 2019. This distribution amount represents an approximate 40.0% reduction over previously announced cash distributions. While we are still working on finalizing our capital plans for a new expansion project that we believe will significantly increase our capacity, such plans will require capital expenditures materially higher than have been incurred by Ciner Wyoming in recent years. To maintain a disciplined financial policy and what we believe is a conservative capital structure we intend to pay for the investment in part through cash generated by the business and in part through debt. When considering the significant investment required by this expansion and the infrastructure improvements designed to increase our overall efficiency, we have lowered our cash distributions from Wyoming and the Partnership to satisfy at least 50% of the funding for the project, which we believe will be for approximately 10-12 quarters depending upon business performance. We intend to maintain the distribution at this level until such targets are met.

Our general partner has considerable discretion in determining the amount of available cash, the amount of distributions and the decision to make any distribution. Although our partnership agreement requires that we distribute all of our available cash quarterly, there is no guarantee that we will make quarterly cash distributions to our unitholders at our current quarterly distribution level, at the minimum quarterly distribution level or at any other rate, and we have no legal obligation to do so.

General Partner Interest and Incentive Distribution Rights

Our partnership agreement provides that our general partner initially will be entitled to 2.0% of all distributions that we make prior to our liquidation. Our general partner has the right, but not the obligation, to contribute up to a proportionate amount of capital to us in order to maintain its 2.0% general partner interest if we issue additional units (other than the issuance of common units upon a reset of the Incentive Distribution Rights ("IDRs")). Our general partner currently has an approximate 2.0% ownership interest in the partnership. Our partnership agreement does not require that our general partner fund its capital contribution with cash. It may, instead, fund its capital contribution by contributing to us common units or other property.

IDRs represent the right to receive increasing percentages (13.0% , 23.0% and 48.0%) of quarterly distributions from operating surplus after we have achieved the minimum quarterly distribution and the target distribution levels. Our general partner currently holds the IDRs, but may transfer these rights separately from its general partner interest, subject to certain restrictions in our partnership agreement.

Percentage Allocations of Distributions from Operating Surplus

The following table illustrates the percentage allocations of distributions from operating surplus between the unitholders and our general partner based on the specified target distribution levels. The amounts set forth under the column heading "Marginal Percentage Interest in Distributions" are the percentage interests of our general partner and the unitholders in any distributions from operating surplus we distribute up to and including the corresponding amount in the column "Total Quarterly Distribution per Unit Target Amount." The percentage interests shown for our unitholders and our general partner for the minimum quarterly distribution also apply to quarterly distribution amounts that are less than the minimum quarterly distribution. The percentage interests set forth below for our general partner (1) include its 2.0% general partner interest, (2) assume that our general partner has contributed any additional capital necessary to maintain its 2.0% general partner interest, (3) assume that our general partner has not transferred its IDRs and

[Table of Contents](#)

(4) assume there are no arrearages on common units.

	Total Quarterly Distribution per Unit Target Amount	Marginal Percentage Interest in Distributions	
		Unitholders	General Partner
Minimum Quarterly Distribution	\$0.5000	98.0%	2.0%
First Target Distribution	above \$0.5000 up to \$0.5750	98.0%	2.0%
Second Target Distribution	above \$0.5750 up to \$0.6250	85.0%	15.0%
Third Target Distribution	above \$0.6250 up to \$0.7500	75.0%	25.0%
Thereafter	above \$0.7500	50.0%	50.0%

3. INVENTORY

Inventory consisted of the following:

<i>(In millions)</i>	As of	
	March 31, 2019	December 31, 2018
Raw materials	\$ 11.8	\$ 10.9
Finished goods	6.5	5.1
Stores inventory	6.5	6.3
Total	\$ 24.8	\$ 22.3

4. DEBT

Long-term debt consisted of the following:

<i>(In millions)</i>	As of	
	March 31, 2019	December 31, 2018
Ciner Wyoming Credit Facility, unsecured principal expiring on August 1, 2022, variable interest rate as a weighted average rate of 3.99% at March 31, 2019 and December 31, 2018	\$ 147.0	\$ 99.0
Total debt	147.0	99.0
Current portion of long-term debt	—	—
Total long-term debt	\$ 147.0	\$ 99.0

Aggregate maturities required on long-term debt at March 31, 2019 are due in future years as follows:

<i>(In millions)</i>	Amount
2021	\$ —
2022	147.0
2023 to 2025 and beyond	—
Total	\$ 147.0

5. OTHER NON-CURRENT LIABILITIES

Other non-current liabilities consisted of the following:

<i>(In millions)</i>	As of	
	March 31, 2019	December 31, 2018
Reclamation reserve	\$ 5.5	\$ 5.4
Derivative instruments and hedges, fair value liabilities	3.8	5.5
Total	\$ 9.3	\$ 10.9

A reconciliation of the Partnership's reclamation reserve liability is as follows:

<i>(In millions)</i>	For the period ended	
	March 31, 2019	December 31, 2018
Beginning reclamation reserve balance	\$ 5.4	\$ 5.1
Accretion expense	0.1	0.3
Ending reclamation reserve balance	\$ 5.5	\$ 5.4

6. REVENUE

The Partnership has one reportable segment and our revenue is derived from the sale of soda ash which is our sole and primary good and service. We account for revenue in accordance with Revenue from Contracts with Customers (“ASC 606”).

Performance Obligations. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account in ASC 606. A contract’s transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. At contract inception, we assess the goods and services promised in contracts with customers and identify performance obligations for each promise to transfer to the customer, a good or service that is distinct. To identify the performance obligations, the Partnership considers all goods and services promised in the contract regardless of whether they are explicitly stated or are implied by customary business practices. From its analysis, the Partnership determined that the sale of soda ash is currently its only performance obligation. Many of our customer volume commitments are short-term and our performance obligations for the sale of soda ash are generally limited to single purchase orders.

When performance obligations are satisfied. Substantially all of our revenue is recognized at a point-in-time when control of goods transfers to the customer.

Transfer of Goods. The Partnership uses standard shipping terms across each customer contract with very few exceptions. Shipments to customers are made with terms stated as Free on Board (“FOB”) Shipping Point. Control typically transfers when goods are delivered to the carrier for shipment, which is the point at which the customer has the ability to direct the use of and obtain substantially all remaining benefits from the asset.

Payment Terms. Our payment terms vary by the type and location of our customers. The term between invoicing and when payment is due is not significant and consistent with typical terms in the industry.

Variable Consideration. We recognize revenue as the amount of consideration that we expect to receive in exchange for transferring promised goods or services to customers. We do not adjust the transaction price for the effects of a significant financing component, as the time period between control transfer of goods and services and expected payment is one year or less . At the time of sale, we estimate provisions for different forms of variable consideration (discounts, rebates, and pricing adjustments) based on historical experience, current conditions and contractual obligations, as applicable. The estimated transaction price is typically not subject to significant reversals. We adjust these estimates when the most likely amount of consideration we expect to receive changes, although these changes are typically immaterial.

Returns, Refunds and Warranties. In the normal course of business, the Partnership does not accept returns, nor does it typically provide customers with the right to a refund.

Freight. In accordance with ASC 606, the Partnership made a policy election to treat freight and related costs that occur after control of the related good transfers to the customer as fulfillment activities instead of separate performance obligations. Therefore freight is recognized at the point in which control of soda ash has transferred to the customer.

Revenue Disaggregation . In accordance with ASC 606-10-50, the Partnership disaggregates revenue from contracts with customers into geographical regions. The Partnership determined that disaggregating revenue into these categories achieved the disclosure objectives to depict how the nature, timing, amount and uncertainty of revenue and cash flows are affected by economic factors. Refer to Note 12 , “Major Customers and Segment Reporting” for revenue disaggregated into geographical regions.

Contract Balances . The timing of revenue recognition, billings and cash collections results in billed receivables, unbilled receivables (contract assets), and customer advances and deposits (contract liabilities).

Contract Assets. At the point of shipping, the Partnership has an unconditional right to payment that is only dependent on the passage of time. In general, customers are billed and a receivable is recorded as goods are shipped. These billed receivables are reported as “Accounts Receivable, net” on the Condensed Consolidated Balance Sheet as of March 31, 2019 . There were no contract assets as of March 31, 2019 or December 31, 2018 .

Contract Liabilities. There may be situations where customers are required to prepay for freight and insurance prior to shipment. The Partnership has elected the practical expedient for its treatment of freight and therefore, such prepayments are considered a part of the single obligation to provide soda ash. In such instances, a contract liability for prepaid freight will be recorded. For the three months ended March 31, 2019 , there were no customers that required prepaid freight. There were no contract liabilities as of March 31, 2019 or December 31, 2018 .

Practical and Expedients Exceptions

Incremental costs of obtaining contracts. We generally expense costs related to sales, including sales force salaries and marketing expenses, when incurred because the amortization period would have been one year or less. These costs are recorded within sales and marketing expenses.

Unsatisfied performance obligations. We do not disclose the value of unsatisfied performance obligations for contracts with an original expected length of one year or less.

7. EMPLOYEE COMPENSATION

The Partnership participates in various benefit plans offered and administered by Ciner Corp and is allocated its portions of the annual costs related thereto. The specific plans are as follows:

Retirement Plans - Benefits provided under the pension plan for salaried employees and pension plan for hourly employees (collectively, the “Retirement Plans”) are based upon years of service and average compensation for the highest 60 consecutive months of the employee’s last 120 months of service, as defined. Each Retirement Plan covers substantially all full-time employees hired before May 1, 2001. The Retirement Plans had a net unfunded liability balance of \$56.1 million and \$56.9 million at March 31, 2019 and December 31, 2018, respectively. The current funding policy is to contribute an amount within the range of the minimum required and the maximum tax-deductible contribution. The Partnership’s allocated portion of the Retirement Plan’s net periodic pension costs were \$0.2 million for the three months ended March 31, 2019 and 2018.

Savings Plan - The 401(k) retirement plan (the “401(k) Plan”) covers all eligible hourly and salaried employees. Eligibility is limited to all domestic residents and any foreign expatriates who are in the United States indefinitely. The 401(k) Plan permits employees to contribute specified percentages of their compensation, while the Partnership makes contributions based upon specified percentages of employee contributions. Participants hired on or subsequent to May 1, 2001, will receive an additional contribution from the Partnership based on a percentage of the participant’s base pay. Contributions made to the 401(k) Plan were \$1.4 million and \$1.3 million for the three months ended March 31, 2019 and 2018, respectively.

Postretirement Benefits - Most of the Partnership’s employees are eligible for postretirement benefits other than pensions if they reach retirement age while still employed.

The postretirement benefits are accounted for by Ciner Corp on an accrual basis over an employee’s period of service. The postretirement plan, excluding pensions, are not funded, and Ciner Corp has the right to modify or terminate the plan. The post-retirement plan had a net unfunded liability of \$9.0 million and \$9.9 million at March 31, 2019 and December 31, 2018, respectively. The decrease in the obligation as of March 31, 2019 as compared to December 31, 2018 is due to Ciner Corp amending its postretirement benefit plan during 2017 to increase eligibility requirements at which participants may begin receiving benefits, implementing a subsidy rather than a premium for the benefit plan, and eliminating plan eligibility for individuals hired after December 31, 2016. The result of these changes have resulted in a postretirement (benefit) cost being amortized to the liability recorded at Ciner Corp.

The Partnership’s allocated portion of postretirement benefit for the three months ended March 31, 2019 and 2018, were benefits of \$(0.6) million and \$(0.7) million, respectively.

8. EQUITY - BASED COMPENSATION

We grant various types of equity-based awards to participants, including time restricted unit awards and total return restricted performance unit awards (“TR Performance Unit Awards”). The key terms of our restricted unit awards and TR Performance Unit Awards, including all financial disclosures, are set forth in our 2018 Annual Report.

All employees, officers, consultants and non-employee directors of us and our parents and subsidiaries are eligible to be selected to participate in the Ciner Resource Partners LLC 2013 Long-Term Incentive Plan (as amended to date, the “Plan” or “LTIP”). As of March 31, 2019, subject to further adjustment as provided in the Plan, a total of 0.7 million common units were available for awards under the Plan. Any common units tendered by a participant in payment of the tax liability with respect to an award, including common units withheld from any such award, will not be available for future awards under the Plan. Common units awarded under the Plan may be reserved or made available from our authorized and unissued common units or from common units reacquired (through open market transactions or otherwise). Any common units issued under the Plan through the assumption or substitution of outstanding grants from an acquired company will not reduce the number of common units available for awards under the Plan. If any common units subject to an award under the Plan are forfeited, those forfeited units will again be available for awards under the Plan. The Partnership has made a policy election to recognize forfeitures as they occur in lieu of estimating future forfeiture activity under the Plan.

Non-employee Director Awards

There were no grants of non-employee director awards during the three months ended March 31, 2019 or 2018.

Time Restricted Unit Awards

We grant restricted unit awards in the form of common units to certain employees which vest over a specified period of time, usually between one to three years, with vesting based on continued employment as of each applicable vesting date. Award recipients are entitled to distributions subject to the same restrictions as the underlying common unit. The awards are classified as equity awards, and are accounted for at fair value at grant date. The Partnership has made a policy election to recognize compensation expense attributable to restricted unit awards on a straight-line basis.

The following table presents a summary of activity on the Time Restricted Unit Awards:

	Three Months Ended March 31, 2019		Three Months Ended March 31, 2018	
	Number of Common Units	Grant-Date Average Fair Value per Unit (1)	Number of Common Units	Grant-Date Average Fair Value per Unit (1)
<i>(Units in whole numbers)</i>				
Unvested at the beginning of period	71,436	\$ 27.56	94,791	\$ 27.22
Granted	—	—	3,907	26.84
Vested	(32,087)	27.85	(42,892)	25.73
Forfeited	—	—	(396)	28.46
Unvested at the end of the period	39,349	\$ 27.33	55,410	\$ 28.33

(1) Determined by dividing the aggregate grant date fair value of awards by the number of common units.

Total Return Performance Unit Awards

We grant TR Performance Unit Awards to certain employees. The TR Performance Unit Awards represent the right to receive a number of common units at a future date based on the achievement of market-based performance requirements in accordance with the TR Unit Performance Award agreement, and also include Distribution Equivalent Rights (“DERs”). DERs are the right to receive an amount equal to the accumulated cash distributions made during the period with respect to each common unit issued upon vesting. The TR Performance Unit Awards vest at the end of the performance period, usually between two to three years from the date of the grant. Performance is measured on the achievement of a specified level of total return, or TR, relative to the TR of a peer group comprised of other limited partnerships. The potential payout ranges from 0 - 200% of the grant target quantity and is adjusted based on our TR performance relative to the peer group.

We utilized a Monte Carlo simulation model to estimate the grant date fair value of TR Performance Unit Awards granted to employees, adjusted for market conditions. This type of award requires the input of highly subjective assumptions, including expected volatility and expected distribution yield. Historical and implied volatilities were used in estimating the fair value of these awards.

The following table presents a summary of activity on the TR Performance Unit Awards:

	Three Months Ended March 31, 2019		Three Months Ended March 31, 2018	
	Number of Common Units	Grant-Date Average Fair Value per Unit (1)	Number of Common Units	Grant-Date Average Fair Value per Unit (1)
<i>(Units in whole numbers)</i>				
Unvested at the beginning of period	52,974	\$ 42.22	26,177	\$ 42.93
Granted	—	—	—	—
Vested (2)	(4,766)	43.93	—	—
Forfeited	—	—	—	—
Unvested at the end of the period	48,208	\$ 42.05	26,177	\$ 42.93

(1) Determined by dividing the aggregate grant date fair value of awards by the number of common units.

(2) Total vesting of 9,003 common units net of 5,457 of common units purchased by the Partnership in satisfaction of certain employee tax withholding obligations.

Unrecognized Compensation Expense

A summary of the Partnership's unrecognized compensation expense for its unvested restricted time and performance based units, and the weighted-average periods over which the compensation expense is expected to be recognized are as following:

	Three Months Ended March 31, 2019		Three Months Ended March 31, 2018	
	Unrecognized Compensation Expense (In millions)	Weighted Average to be Recognized (In years)	Unrecognized Compensation Expense (In millions)	Weighted Average to be Recognized (In years)
Time-based units	\$ 1.0	1.39	\$ 1.5	1.97
Performance-based units	1.0	1.57	0.7	1.73
Total	\$ 2.0		\$ 2.2	

9. ACCUMULATED OTHER COMPREHENSIVE LOSS

Accumulated Other Comprehensive loss

Accumulated other comprehensive loss, attributable to Ciner Resources, includes unrealized gains and losses on derivative financial instruments. Amounts recorded in accumulated other comprehensive loss as of March 31, 2019 and December 31, 2018, and changes within the period, consisted of the following:

<i>(In millions)</i>	Gains and (Losses) on Cash Flow Hedges
Balance at December 31, 2018	\$ (3.8)
Other comprehensive loss before reclassification	1.5
Amounts reclassified from accumulated other comprehensive loss	(0.5)
Net current period other comprehensive loss	1.0
Balance at March 31, 2019	\$ (2.8)

Other Comprehensive Loss

Other comprehensive income/(loss), including the portion attributable to non-controlling interest, is derived from adjustments to reflect the unrealized gains/(loss) on derivative financial instruments. The components of other comprehensive income/(loss) consisted of the following:

<i>(In millions)</i>	Three Months Ended March 31,	
	2019	2018
Unrealized loss (gain) on derivatives:		
Mark to market adjustment on interest rate swap contracts	\$ (0.2)	\$ 0.1
Mark to market adjustment on natural gas forward contracts	2.2	(2.3)
Loss (gain) on derivative financial instruments	\$ 2.0	\$ (2.2)

Reclassifications for the period

The components of other comprehensive loss, attributable to Ciner Resources, that have been reclassified consisted of the following:

<i>(In millions)</i>	Three Months Ended March 31,		Affected Line Items on the Unaudited Condensed Consolidated Statements of Operations and Comprehensive Income
	2019	2018	
Details about other comprehensive loss components:			
Gains and losses on cash flow hedges:			
Interest rate swap contracts	\$ (0.1)	\$ —	Interest expense
Natural gas forward contracts	(0.4)	0.4	Cost of products sold
Total reclassifications for the period	\$ (0.5)	\$ 0.4	

10. COMMITMENTS AND CONTINGENCIES

From time to time we are party to various claims and legal proceedings related to our business. Although the outcome of these proceedings cannot be predicted with certainty, management does not currently expect any of the legal proceedings we are involved in to have a material effect on our business, financial condition and results of operations. We cannot predict the nature of any future claims or proceedings, nor the ultimate size or outcome of existing claims and legal proceedings and whether any damages resulting from them will be covered by insurance.

Off-Balance Sheet Arrangements

We have a self-bond agreement with the Wyoming Department of Environmental Quality under which we commit to pay directly for reclamation costs. The amount of the bond was \$32.9 million as of March 31, 2019 and December 31, 2018, which is the amount we would need to pay the State of Wyoming for reclamation costs if we cease mining operations currently. The amount of this self-bond is subject to change upon periodic re-evaluation by the Land Quality Division.

11. AGREEMENTS AND TRANSACTIONS WITH AFFILIATES

Ciner Corp is the exclusive sales agent for the Partnership and through its membership in ANSAC, Ciner Corp is responsible for promoting and increasing the use and sale of soda ash and other refined or processed sodium products produced. ANSAC operates on a cooperative service-at-cost basis to its members such that typically any annual profit or loss is passed through to the members. In the event an ANSAC member exits or the ANSAC cooperative is dissolved, the exiting members are obligated for their respective portion of the residual net assets or deficit of the cooperative. On November 9, 2018, Ciner Corp delivered a notice to terminate its membership in ANSAC. The termination from ANSAC will be effective as of December 31, 2021. As of March 31, 2019, we have not recognized an asset or liability related to its exit from ANSAC as such an amount is not currently probable or estimable.

All actual sales and marketing costs incurred by Ciner Corp are charged directly to the Partnership. Selling, general and administrative expenses also include amounts charged to the Partnership by its affiliates principally consisting of salaries, benefits, office supplies, professional fees, travel, rent and other costs of certain assets used by the Partnership. On October 23, 2015, the Partnership entered into a Services Agreement (the "Services Agreement"), among the Partnership, our general partner and Ciner Corp. Pursuant to the Services Agreement, Ciner Corp has agreed to provide the Partnership with certain corporate, selling, marketing, and general and administrative services, in return for which the Partnership has agreed to pay Ciner Corp an annual management fee and reimburse Ciner Corp for certain third-party costs incurred in connection with providing such services. In addition, under the limited liability company agreement governing Ciner Wyoming, Ciner Wyoming reimburses us for employees who operate our assets and for support provided to Ciner Wyoming. These transactions do not necessarily represent arm's length transactions and may not represent all costs if Ciner Wyoming operated on a standalone basis.

The total selling, general and administrative costs charged to the Partnership by affiliates were as follows:

<i>(In millions)</i>	Three Months Ended March 31,	
	2019	2018
Ciner Corp	\$ 4.6	\$ 4.1
ANSAC ⁽¹⁾	0.9	0.8
Total selling, general and administrative expenses - affiliates	<u>\$ 5.5</u>	<u>\$ 4.9</u>

⁽¹⁾ ANSAC allocates its expenses to its members using a pro-rata calculation based on sales.

Net sales to affiliates were as follows:

<i>(In millions)</i>	Three Months Ended March 31,	
	2019	2018
ANSAC	\$ 77.5	\$ 65.9
Total	<u>\$ 77.5</u>	<u>\$ 65.9</u>

The Partnership had accounts receivable from affiliates and due to affiliates as follows:

<i>(In millions)</i>	As of			
	March 31, 2019	December 31, 2018	March 31, 2019	December 31, 2018
	Accounts receivable from affiliates		Due to affiliates	
ANSAC	\$ 61.5	\$ 48.7	\$ 0.9	\$ 0.7
CIDT	5.2	7.1	—	—
Ciner Corp	25.8	14.3	3.4	1.9
Total	\$ 92.5	\$ 70.1	\$ 4.3	\$ 2.6

12. MAJOR CUSTOMERS AND SEGMENT REPORTING

Our operations are similar in geography, nature of products we provide, and type of customers we serve. As the Partnership earns substantially all of its revenues through the sale of soda ash mined at a single location, we have concluded that we have one operating segment for reporting purposes.

The net sales by geographic area are as follows:

<i>(In millions)</i>	Three Months Ended March 31,	
	2019	2018
Domestic	\$ 52.9	\$ 55.3
International - ANSAC	77.5	65.9
Total net sales	\$ 130.4	\$ 121.2

13. FAIR VALUE MEASUREMENTS

The Partnership measures certain financial and non-financial assets and liabilities at fair value on a recurring basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. Fair value disclosures are reflected in a three-level hierarchy, maximizing the use of observable inputs and minimizing the use of unobservable inputs.

A three-level valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

- Level 1-inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.
- Level 2-inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.
- Level 3-inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

Financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable and long-term debt. The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate their fair value because of the nature of such instruments. Our derivative financial instruments are measured at their fair value with Level 2 inputs based on quoted market values for similar but not identical financial instruments.

Financial Assets and Liabilities Measured at Fair Value on a Recurring Basis

Derivative Financial Instruments

We have interest rate swap contracts, designated as cash flow hedges, to mitigate our exposure to possible increases in interest rates. The swap contracts consist of four individual \$12.5 million swaps with an aggregate notional value of \$50.0 million at March 31, 2019 and December 31, 2018. The swaps have various maturities through 2022.

We enter into natural gas forward contracts, designated as cash flow hedges, to mitigate volatility in the price of natural gas related to a portion of the natural gas we consume. These contracts generally have various maturities through 2023. These contracts had an aggregate notional value of \$40.1 million and \$41.2 million at March 31, 2019 and December 31, 2018, respectively.

The following table presents the fair value of derivative assets and liability derivatives and the respective locations on our unaudited condensed consolidated balance sheets as of March 31, 2019 and December 31, 2018:

<i>(In millions)</i>	Balance Sheet Location	Assets		Liabilities	
		March 31, 2019	December 31, 2018	March 31, 2019	December 31, 2018
		Fair Value	Fair Value	Fair Value	Fair Value
Derivatives designated as hedges:					
Interest rate swap contracts - current	Accrued Expenses	\$ —	\$ —	\$ 0.5	\$ 0.3
Natural gas forward contracts - current	Accrued Expenses	—	—	1.2	1.6
Natural gas forward contracts - non-current	Other non-current liabilities	—	—	3.8	5.5
Total fair value of derivatives designated as hedging instruments		\$ —	\$ —	\$ 5.5	\$ 7.4

Financial Assets and Liabilities not Measured at Fair Value

The carrying value of our long-term debt materially reflects the fair value of our long-term debt as its key terms are similar to indebtedness with similar amounts, durations and credit risks. See Note 4 “Debt” for additional information on our debt arrangements.

14. SUBSEQUENT EVENTS

On May 10, 2019, the members of the Board of Managers of Ciner Wyoming LLC, approved a cash distribution to the members of Ciner Wyoming in the aggregate amount of \$19.0 million. This distribution is payable on May 17, 2019.

On May 10, 2019, the Partnership declared a cash distribution approved by the board of directors of its general partner. The cash distribution for the first quarter of 2019 of \$0.340 per unit will be paid on May 24, 2019 to unitholders of record on May 21, 2019.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following management's discussion and analysis of financial condition and results of operations in conjunction with the historical unaudited condensed consolidated financial statements, and notes thereto, included elsewhere in this Report.

Cautionary Statements Regarding Forward-Looking Statements

This Report contains forward-looking statements relating to the financial condition, results of operations, plans, objectives, future performance and business of the Partnership. We have based such forward-looking statements on management's beliefs and assumptions and on information currently available to us. Forward-looking statements include all statements that are not historical facts and may be identified by the use of forward-looking terminology such as the words "believe," "expect," "plan," "intend," "anticipate," "estimate," "predict," "forecast," "potential," "continue," "may," "will," "should" or the negative of these terms or similar expressions. In particular, forward-looking statements in this Report include statements concerning future distributions, if any, and such distributions are subject to the approval of the board of directors of our general partner and will be based upon circumstances then existing. You are cautioned not to place undue reliance on any forward-looking statements. Actual results may vary materially. You should also understand that it is not possible to predict or identify all such factors and should not consider the following list to be a complete statement of all potential risks and uncertainties. Factors that could cause our actual results to differ materially from the results contemplated by such forward-looking statements and, therefore, affect our ability to distribute cash to unitholders, include:

- the market prices for soda ash in the markets in which we sell;
- the volume of natural and synthetic soda ash produced worldwide;
- domestic and international demand for soda ash in the flat glass, container glass, detergent, chemical and paper industries in which our customers operate or serve;
- the freight costs we pay to transport our soda ash to customers or various delivery points;
- the cost of electricity and natural gas used to power our operations;
- the amount of royalty payments we are required to pay to our lessors and licensor and the duration of our leases and license;
- political disruptions in the markets we or our customers serve, including any changes in trade barriers;
- our relationships with our customers and or our sales agent's ability to renew contracts on favorable terms to us;
- the creditworthiness of our customers;
- regulatory action affecting the supply of, or demand for, soda ash, our ability to mine trona ore, our transportation logistics, our operating costs or our operating flexibility;
- new or modified statutes, regulations, governmental policies and taxes or their interpretations; and
- prevailing U.S. and international economic conditions and foreign exchange rates.

In addition, the actual amount of cash we will have available for distribution will depend on other factors, some of which are beyond our control, including, among other things:

- the level and timing of capital expenditures we make;
- the level of our operating, maintenance and general and administrative expenses, including reimbursements to our general partner for services provided to us;
- the cost of acquisitions, if any;
- our debt service requirements and other liabilities;
- fluctuations in our working capital needs;
- our ability to borrow funds and access capital markets;
- restrictions on distributions contained in debt agreements to which we, Ciner Wyoming or our affiliates are a party;
- the amount of cash reserves established by our general partner; and
- other business risks affecting our cash levels.

These factors should not be construed as exhaustive and we urge you to carefully consider the risks described in this Report, our most recent Form 10-K, and subsequent reports filed with the Securities and Exchange Commission (the "SEC"). You may obtain these reports from the SEC's website at www.sec.gov. All forward-looking statements included in this Report are expressly qualified in their entirety by these cautionary statements. Unless required by law, we undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

References

References in this Quarterly Report on Form 10-Q ("Report") to the "Partnership," "CINR," "Ciner Resources," "we," "our," "us," or like terms refer to Ciner Resources LP and its subsidiary, Ciner Wyoming LLC, which is the consolidated subsidiary of the Partnership and referred to herein as "Ciner Wyoming." References to "our general partner" or "Ciner GP" refer to Ciner Resource Partners LLC, the general partner of Ciner Resources LP and a direct wholly-owned subsidiary of Ciner Wyoming Holding Co. ("Ciner Holdings"), which is a direct wholly-owned subsidiary of Ciner Resources Corporation ("Ciner Corp"). Ciner Corp is a direct wholly-owned subsidiary of Ciner Enterprises Inc. ("Ciner Enterprises"), which is a direct wholly-owned subsidiary of WE Soda Ltd., a U.K. corporation ("WE Soda"). WE Soda is a direct wholly-owned subsidiary of KEW Soda Ltd., a U.K. corporation ("KEW Soda"), which is a direct wholly-owned subsidiary of Akkan Enerji ve Madencilik Anonim Şirketi ("Akkan"). Akkan is directly and wholly owned by Turgay Ciner, the Chairman of the Ciner Group ("Ciner Group"), a Turkish conglomerate of companies engaged in energy and mining (including soda ash mining), media and shipping markets. All of our soda ash processed is currently sold to various domestic and international customers, including American Natural Soda Ash Corporation ("ANSAC"), which is an affiliate for export sales.

Overview

We are a Delaware limited partnership formed by Ciner Holdings to own a 51.0% membership interest in, and to operate the trona ore mining and soda ash production business of, Ciner Wyoming. Ciner Wyoming is currently one of the world's largest producers of soda ash, serving a global market from its facility in the Green River Basin of Wyoming. Our facility has been in operation for more than 50 years.

NRP Trona LLC, a wholly-owned subsidiary of Natural Resource Partners L.P. ("NRP") currently owns an indirect 49.0% membership interest in Ciner Wyoming.

Recent Developments

Reduction in Quarterly Distribution

On May 10, 2019, the Partnership declared its first quarter 2019 quarterly cash distribution of \$0.340 per unit. The quarterly cash distribution is payable on May 24, 2019 to unitholders of record on May 21, 2019. This distribution amount represents an approximate 40.0% reduction over previously announced cash distributions. While we are still working on finalizing our capital plans for a new expansion project that we anticipate will increase our capacity up to approximately 3.5 million tons of soda ash per year, it is clear such plans will require capital expenditures materially higher than have been incurred by Ciner Wyoming in recent years. When considering infrastructure improvements designed to increase our overall efficiency plus the expansion, our plans could entail up to \$400M of new capital investment. We are committed to maintaining a disciplined financial policy with a conservative capital structure, which means we intend to pay for the investment in part through cash generated by the business and in part through debt. As a result, we have made the decision proactively to lower our cash distributions from Wyoming until we have satisfied at least 50% of the funding for the project, which we expect will take roughly 10-12 quarters depending upon business performance. We intend to maintain the distribution at this level until such targets are met. Afterward, we believe increased production levels from our operations will materially improve our available cash and allow us to resume growing our distributions again.

Notice to Terminate Membership in ANSAC

On November 9, 2018, we were informed that Ciner Corp delivered a notice to terminate its membership in ANSAC, a cooperative that serves as the primary international distribution channel for us as well as two other U.S. manufacturers of trona-based soda ash. The effective termination date is expected to be December 31, 2021 (the "ANSAC Termination Date"). ANSAC was our largest customer for the years ended December 31, 2018 and 2017 and the three months ended March 31, 2019 and 2018, accounting for 52.0%, 44.7%, 59.4% and 54.4%, respectively, of our net sales. Although ANSAC has been our largest customer for each of the years ended December 31, 2018 and 2017, we anticipate that the impact of such termination on our net sales, net income and liquidity will be limited. We made this determination primarily based upon the belief that we will continue to be one of the lowest cost producers of soda ash in the global market that has historically seen demand for soda ash exceed supply of soda ash, and therefore we anticipate being able to find export customers regardless of our membership status. Between now and the ANSAC Termination Date, Ciner Corp will continue to have full ANSAC membership benefits and services. The ANSAC membership agreement provides that in the event an ANSAC member exits or the ANSAC cooperative is dissolved, the exiting members are obligated for their respective portion of the

residual net assets or deficit of the cooperative. As of March 31, 2019, we have not recognized an asset or liability related to the exit from ANSAC as such an amount is not currently probable or estimable.

Factors Affecting Our Results of Operations

Soda Ash Supply and Demand

Our net sales, earnings and cash flow from operations are primarily affected by the global supply of, and demand for, soda ash, which, in turn, directly impacts the prices we and other producers charge for our products.

Demand for soda ash in the United States is driven in large part by general economic growth and activity levels in the end-markets that the glass-making industry serves, such as the automotive and construction industries. Because the United States is a well-developed market, we expect that domestic demand levels will remain stable for the near future. Because future U.S. capacity growth is expected to come from the four major producers in the Green River Basin, we also expect that U.S. supply levels will remain relatively stable in the near term.

Soda ash demand in international markets has continued to grow in conjunction with GDP. We expect that future global economic growth will positively influence global demand, which will likely result in increased exports, primarily from the United States, Turkey and to a limited extent, from China, the largest suppliers of soda ash to international markets.

Sales Mix

We will adjust our sales mix based upon what is the best margin opportunity for the business between domestic and international. Our operations have been and continue to be sensitive to fluctuations in freight and shipping costs and changes in international prices, which have historically been more volatile than domestic prices. Our gross profit will be impacted by the mix of domestic and international sales as a result of changes in logistics costs and our average selling prices.

International Commercial Restructuring and Expansion

After the ANSAC Termination Date, we expect Ciner Corp will begin marketing soda ash directly into international markets that are currently being served by ANSAC and intends to utilize the distribution network that has already been established by the global Ciner Group. We believe by combining our volumes with Ciner Group's soda ash exports from Turkey, our withdrawal from ANSAC will allow us to leverage the larger, global Ciner Group soda ash operations, which we expect will eventually lower our cost position and improve our ability to optimize our market share both domestically and internationally.

Energy Costs

One of the primary impacts to our profitability is our energy costs. Because we depend upon natural gas and electricity to power our trona ore mining and soda ash processing operations, our net sales, earnings and cash flow from operations are sensitive to changes in the prices we pay for these energy sources. Our cost of energy, particularly natural gas, has been relatively low in recent years, and, despite the historic volatility of natural gas prices, we believe that we will continue to benefit from relatively low prices in the near future. However, we expect to continue to hedge a portion of our forecasted natural gas purchases to mitigate volatility. In addition, we have begun installation of a new electricity/steam co-generation facility that is estimated to reduce our electricity demand by roughly one-third per year. We expect to commence operations of the co-generation facility in the second half of 2019.

How We Evaluate Our Business

Productivity of Operations

Our soda ash production volume is primarily dependent on the following three factors: (1) operating rate, (2) quality of our mined trona ore and (3) recovery rates. Operating rate is a measure of utilization of the effective production capacity of our facility and is determined in large part by productivity rates and mechanical on-stream times, which is the percentage of actual run times over the total time scheduled. We implement two planned outages of our mining and surface operations each year, typically in the second and third quarters. During these outages, which are scheduled to last approximately one week each, we repair and replace equipment and parts. Periodically, we may experience minor unplanned outages or unplanned extensions to planned outages caused by various factors, including equipment failures, power outages or service interruptions. The quality of our mine ore is determined by measuring the trona ore recovered as a percentage of the deposit, which includes both trona ore and insolubles. Plant recovery rates are generally determined by calculating the soda ash produced divided by the sum of the soda ash produced plus soda ash that is not recovered from the process. All of these factors determine the amount of trona ore we require to produce one short ton of soda ash and liquor, which we refer to as our "ore to ash ratio." Our ore to ash ratio was 1.52: 1.0 and 1.55: 1.0 for the three months ended March 31, 2019 and 2018, respectively.

Freight and Logistics

The soda ash industry is logistics intensive and involves careful management of freight and logistics costs. These freight costs make up a large portion of the total delivered cost to the customer. Delivered costs to most domestic customers and ANSAC primarily relates to rail freight services. Some domestic customers may elect to arrange their own freight and logistic services. Delivered costs to non-ANSAC international customers primarily consists of both rail freight services to the port of embarkation and the additional ocean freight to the port of disembarkation.

Union Pacific is our largest provider of domestic rail freight services and accounted for 83.0% and 80.5% of our total freight costs during the three months ended March 31, 2019 and 2018, respectively. The increase in the percentage of freight that is related to Union Pacific is due to a greater portion of sales to domestic customers and ANSAC primarily consisting of only rail freight services. Our agreement with Union Pacific expires on December 31, 2019 and there can be no assurance that it will be renewed on terms favorable to us or at all. If we do not ship at least a significant portion of our soda ash production on the Union Pacific rail line during a twelve-month period, we must pay Union Pacific a shortfall payment under the terms of our transportation agreement. For the three months ended March 31, 2019 and 2018, we had no shortfall payments and do not expect such payments in the future.

Net Sales

Net sales include the amounts we earn on sales of soda ash. We recognize revenue from our sales when control of goods transfers to the customer. Control typically transfers when goods are delivered to the carrier for shipment, which is the point at which the customer has the ability to direct the use of and obtain substantially all remaining benefits from the asset. The time at which delivery and transfer of title occurs, for the majority of our contracts with customers, is the point when the product leaves our facility, thereby rendering our performance obligation fulfilled. Substantially all of our sales are derived from sales of soda ash, which we sell through our exclusive sales agent, Ciner Corp. A small amount of our sales is derived from sales of production purge, which is a by-product liquor solution containing soda ash that is produced during the processing of trona ore. For the purposes of our discussion below, we include these transactions in domestic sales of soda ash and in the volume of domestic soda ash sold.

Sales prices for sales through ANSAC include the cost of freight to the ports of embarkation for overseas export or to Laredo, Texas for sales to Mexico. Sales prices for other international sales may include the cost of rail freight to the port of embarkation, the cost of ocean freight to the port of disembarkation for import by the customer and the cost of inland freight required for delivery to the customer.

Cost of products sold

Expenses relating to employee compensation, energy, including natural gas and electricity, royalties and maintenance materials constitute the greatest components of cost of products sold. These costs generally increase in line with increases in sales volume.

Employee Compensation. See Part I, Item 1. Financial Statements - Note 7, “Employee Compensation” for information on the various benefit plans offered and administered by Ciner Corp.

Energy. A major item in our cost of products sold is energy, comprised primarily of natural gas and electricity. We primarily use natural gas to fuel our above-ground processing operations, including the heating of calciners, and we use electricity to power our underground mining operations, including our continuous mining machines, or continuous miners, and shuttle cars. The monthly Henry Hub natural gas settlement prices, over the past five years, have ranged between \$1.73 and \$4.90 per MMBtu. The average monthly Henry Hub natural gas settlement prices for the three months ended March 31, 2019 and 2018 were \$2.92 and \$3.08, respectively. In order to mitigate the risk of gas price fluctuations, we hedge a portion of our forecasted natural gas purchases by entering into physical or financial gas hedges generally ranging between 20% and 80% of our expected monthly gas requirements, on a sliding scale, for approximately the next five years.

Royalties. We pay royalties to the State of Wyoming, the U.S. Bureau of Land Management and Rock Springs Royalty Company LLC (“RSRC”), an affiliate of Anadarko Petroleum, which are calculated based upon a percentage of the value of soda ash and related products sold at a certain stage in the mining process. These royalty payments may be subject to a minimum domestic production volume from our Green River Basin facility. We are also obligated to pay annual rentals to our lessors and licensor regardless of actual sales. In addition, we pay a production tax to Sweetwater County, and trona severance tax to the State of Wyoming that is calculated based on a formula that utilizes the volume of trona ore mined and the value of the soda ash produced.

The royalty rates we pay to our lessors and licensor may change upon our renewal or renegotiation of such leases and license. On June 28, 2018, Ciner Wyoming amended its License Agreement, dated July 18, 1961 (the “License Agreement”), with RSRC to, among other things, (i) extend the term of the License Agreement to July 18, 2061 and for so long thereafter as Ciner Wyoming continuously conducts operations to mine and remove sodium minerals from the licensed premises in commercial quantities; and (ii) revise the production royalty rate for each sale of sodium mineral products produced from ore extracted from the licensed premises at the royalty rate of eight percent (8%) of the net sales of such sodium mineral products. Any increase in the royalty rates we are required to pay to our lessors and licensor through renewal or renegotiation of leases or license, or any failure by us to renew any of our leases and license, could have a material adverse impact on our results of operations, financial condition or liquidity, and, therefore, may affect our ability to distribute cash to unitholders.

Selling, general and administrative expenses

Selling, general and administrative expenses incurred by our affiliates on our behalf are allocated to us based on the time the employees of those companies spend on our business and the actual direct costs they incur on our behalf. Selling, general and

administrative expenses incurred by ANSAC on our behalf are allocated to us based on the proportion of ANSAC's total volumes sold for a given period attributable to the soda ash sold by us to ANSAC. On October 23, 2015, the Partnership entered into a Services Agreement (the "Services Agreement"), among the Partnership, our general partner and Ciner Corp. Pursuant to the Services Agreement, Ciner Corp has agreed to provide the Partnership with certain corporate, selling, marketing, and general and administrative services, in return for which the Partnership has agreed to pay Ciner Corp an annual management fee, subject to quarterly adjustments, and reimburse Ciner Corp for certain third-party costs incurred in connection with providing such services. In addition, under the joint venture agreement governing Ciner Wyoming, Ciner Wyoming reimburses us for employees who operate our assets and for support provided to Ciner Wyoming.

Ciner Group also owns and operates port facilities in Turkey, and one of its other North American subsidiaries entered into an agreement in 2017 to exclusively import soda ash into a port on the east coast of the U.S. Ciner Corp, which is the exclusive sales agent for the Partnership, will serve as the exclusive sales agent of that material and receive a commission on those sales. We believe by having access to that material, Ciner Corp will be able to offer its customers an improved level of service, greater certainty of supply to the Partnership's end customers, and over time lower our overall costs to serve and subsequently charged to the Partnership.

First Quarter 2019 Financial Highlights:

- Net sales of \$130.4 million increased 7.6% over the prior-year first quarter;
- Net income of \$25.2 million increased 20.6% over the prior-year first quarter;
- Adjusted EBITDA of \$33.2 million increased 15.3% over the prior-year first quarter;
- Earnings per unit of \$0.61 for the quarter increased 19.6% over the prior-year first quarter of \$0.51
- Quarterly distribution declared per unit of \$0.340 decreased 40.0% compared to the prior-year first quarter;
- Net cash provided by operating activities of \$5.6 million decreased 85.0% over prior-year first quarter;
- Distributable cash flow of \$15.6 million was up 18.2% compared to the prior-year first quarter. The distribution coverage ratio was 2.29 : 1.00 and 1.16 : 1.00 for the three months ended March 31, 2019 and 2018 , respectively.

Results of Operations

A discussion and analysis of the factors contributing to our results of operations is presented below for the periods and as of the dates indicated. The financial statements, together with the following information, are intended to provide investors with a reasonable basis for assessing our historical operations, but should not serve as the only criteria for predicting our future performance.

The following table sets forth our results of operations for the three months ended March 31, 2019 and 2018 :

<i>(In millions, except for operating and other data section)</i>	Three Months Ended March 31,	
	2019	2018
Net sales:		
Sales—affiliates	\$ 77.5	\$ 65.9
Sales—others	52.9	55.3
Net sales	\$ 130.4	\$ 121.2
Operating costs and expenses:		
Cost of products sold	90.2	86.4
Depreciation, depletion and amortization expense	6.3	6.8
Selling, general and administrative expenses—affiliates	5.5	4.9
Selling, general and administrative expenses—others	1.9	1.5
Total operating costs and expenses	103.9	99.6
Operating income	26.5	21.6
Interest income	0.1	0.6
Interest expense	(1.4)	(1.3)
Total other expense, net	(1.3)	(0.7)
Net income	25.2	20.9
Net income attributable to non-controlling interest	12.9	10.8
Net income attributable to Ciner Resources LP	\$ 12.3	\$ 10.1
Operating and Other Data:		
Trona ore consumed (thousands of short tons)	1,033.3	1,037.4
Ore to ash ratio ⁽¹⁾	1.52: 1.0	1.55: 1.0
Ore grade ⁽²⁾	86.8%	86.0%
Soda ash volume produced (thousands of short tons)	678.8	669.1
Soda ash volume sold (thousands of short tons)	677.1	667.6
Adjusted EBITDA ⁽³⁾	\$ 33.2	\$ 28.8

- (1) Ore to ash ratio expresses the number of short tons of trona ore needed to produce one short ton of soda ash and liquor and includes our deca rehydration recovery process. In general, a lower ore to ash ratio results in lower costs and improved efficiency.
- (2) Ore grade is the percentage of raw trona ore that is recoverable as soda ash free of impurities. A higher ore grade will produce more soda ash than a lower ore grade.
- (3) For a discussion of the non-GAAP financial measure Adjusted EBITDA, please read “Non-GAAP Financial Measures” of this Management’s Discussion and Analysis.

Analysis of Results of Operations

The following table sets forth a summary of net sales, sales volumes and average sales price, and the percentage change between the periods.

	Three Months Ended March 31,		Percent Increase/(Decrease)
	2019	2018	YTD
<i>(Dollars in millions, except for average sales price data)</i>			
Net sales:			
Domestic	\$ 52.9	\$ 55.3	(4.3)%
International	77.5	65.9	17.6%
Total net sales	<u>\$ 130.4</u>	<u>\$ 121.2</u>	7.6%
Sales volumes (thousands of short tons):			
Domestic	224.4	257.0	(12.7)%
International	452.7	410.6	10.3%
Total soda ash volume sold	<u>677.1</u>	<u>667.6</u>	1.4%
Average sales price (per short ton): ⁽¹⁾			
Domestic	\$ 235.74	\$ 215.18	9.6%
International	\$ 171.20	\$ 160.50	6.7%
Average	<u>\$ 192.59</u>	<u>\$ 181.55</u>	6.1%
Percent of net sales:			
Domestic net sales	40.6%	45.6%	(11.0)%
International net sales	59.4%	54.4%	9.2%
Total percent of net sales	<u>100.0%</u>	<u>100.0%</u>	
Percent of sales volumes:			
Domestic volume	33.1%	38.5%	(14.0)%
International volume	66.9%	61.5%	8.8%
Total percent of volume sold	<u>100.0%</u>	<u>100.0%</u>	

⁽¹⁾ Average sales price per short ton is computed as net sales divided by volumes sold.

Three Months Ended March 31, 2019 compared to Three Months Ended March 31, 2018

Consolidated Results

Net sales. Net sales increased by 7.6% to \$130.4 million for the three months ended March 31, 2019 from \$121.2 million for the three months ended March 31, 2018, driven by an increase in average sales prices of 6.1% as well as a 1.4% increase in soda ash volumes sold. The increase in sales prices is primarily driven by an increase in domestic and international pricing during the three months ended March 31, 2019, partially offset by a shift in our sales mix between domestic and international sales volumes compared to the first quarter of 2018. Our volumes sold have increased as a result of higher ore grade which resulted in higher production during the first quarter of 2019.

Cost of products sold. Cost of products sold, including depreciation, depletion and amortization expense and freight costs, increased by 3.5% to \$96.5 million for the three months ended March 31, 2019 from \$93.2 million for the three months ended March 31, 2018, primarily due to an increase in freight costs as well as higher variable production costs for the quarter primarily as a result of increased sales and production volumes compared to the first quarter of 2018.

Selling, general and administrative expenses. Our selling, general and administrative expenses increased 15.6% to \$7.4 million for the three months ended March 31, 2019, compared to \$6.4 million for the three months ended March 31, 2018. The primary driver for the increase in selling, general and administrative costs were higher legal fees related to our cogeneration project as well as ongoing discussions related to our exit from ANSAC. In addition, we had approximately \$0.3 million in expenses associated with supporting start-up costs related to our Turkish affiliate's importation of soda ash into the eastern seaboard. We do not expect these startup costs to continue going forward. We benefit from these imports through commission payments that lower Ciner Resource Corporation's costs to service Ciner Wyoming's sales. Lastly, our sales volumes to ANSAC are increasing and therefore we are paying a higher proportion of their administration costs.

Operating income. As a result of the foregoing, operating income increased by 22.7% to \$26.5 million for the three months ended March 31, 2019 , compared to \$21.6 million for the three months ended March 31, 2018 .

Net income. As a result of the foregoing, net income increased by 20.6% to \$25.2 million for the three months ended March 31, 2019 , compared to \$20.9 million for the three months ended March 31, 2018 .

Liquidity and Capital Resources

Sources of liquidity include cash generated from operations and borrowings under credit facilities and capital calls from partners. We use cash and require liquidity primarily to finance and maintain our operations, fund capital expenditures for our property, plant and equipment, make cash distributions to holders of our partnership interests, pay the expenses of our general partner and satisfy obligations arising from our indebtedness. Our ability to meet these liquidity requirements will depend primarily on our ability to generate cash flow from operations.

Our sources of liquidity include:

- cash generated from our operations;
- Approximately \$78.0 million (\$225.0 million , less \$147.0 million outstanding), is available for borrowing and undrawn under the Ciner Wyoming Credit Facility as of March 31, 2019 (during the three months ended March 31, 2019 , we had repayments on the Ciner Wyoming Credit Facility of \$12.0 million , offset by borrowings of \$60.0 million) and
- \$10.0 million available for borrowing under the Revolving Credit Facility as of March 31, 2019 .

We expect our ongoing working capital and capital expenditures to be funded by cash generated from operations and borrowings under the Ciner Wyoming Credit Facility. We are currently planning to increase maintenance and expansion capital expenditures at our Wyoming facility to both adequately maintain the physical assets and to increase our operating income and operational capacity needs at the Wyoming facility. The amount, timing and classification of any such capital expenditures could affect the amount of cash that is available to be distributed to our unitholders. In addition, we are subject to business and operational risks that could adversely affect our cash flow and access to borrowings under the Ciner Resources Credit Facility and the Ciner Wyoming Credit Facility. Our ability to satisfy debt service obligations, to fund planned capital expenditures and to make acquisitions will depend upon our future operating performance, which, in turn, will be affected by prevailing economic conditions, our business and other factors, some of which are beyond our control.

In addition, we are subject to business and operational risks that could adversely affect our cash flow and access to borrowings under the Ciner Resources Credit Facility and the Ciner Wyoming Credit Facility. Our ability to satisfy debt service obligations, to fund planned capital expenditures and to make acquisitions will depend upon our future operating performance, which, in turn, will be affected by prevailing economic conditions, our business and other factors, some of which are beyond our control.

We intend to pay a quarterly distribution to unitholders of record, to the extent we have sufficient cash from our operations after establishment of cash reserves, funding of any acquisitions and expansion capital expenditures and payment of fees and expenses, including payments to our general partner and its affiliates. See Part I, Item 2, Overview, “Recent Developments”, for more information.

Capital Requirements

Working capital is the amount by which current assets exceed current liabilities. Our working capital requirements have been, and will continue to be, primarily driven by changes in accounts receivable and accounts payable, which generally fluctuate with changes in volumes, contract terms and market prices of soda ash in the normal course of our business. Other factors impacting changes in accounts receivable and accounts payable could include the timing of collections from customers and payments to suppliers, as well as the level of spending for maintenance and growth capital expenditures. A material adverse change in operations or available financing under the Revolving Credit Facility and the Ciner Wyoming Credit Facility could impact our ability to fund our requirements for liquidity and capital resources. Historically, we have not made working capital borrowings to finance our operations. As of March 31, 2019 , we had a working capital balance of \$117.3 million as compared to a working capital balance of \$76.9 million as of December 31, 2018 . The primary driver for the increase in our working capital balance was an increase in due from affiliates primarily related to incremental sales levels to ANSAC and timing of collections as well as timing of affiliate’s funding of pension benefits.

Capital Expenditures

Our operations require investments to expand, upgrade or enhance existing operations and to meet evolving environmental and safety regulations. We distinguish between maintenance and expansion capital expenditures. Maintenance capital expenditures (including expenditures for the construction or development of new capital assets or the replacement, improvement or expansion of existing capital assets) are made to maintain, over the long term, our operating income or operating capacity. Examples of maintenance capital expenditures are expenditures to upgrade and replace mining equipment and to address equipment integrity, safety and environmental laws and regulations. Our maintenance capital expenditures do not include actual or estimated capital expenditures for replacement of our trona reserves. Expansion capital expenditures are incurred for acquisitions or capital improvements made to increase, over the long term, our operating income or operating capacity. Examples of expansion capital expenditures include the acquisition and/or construction of complementary assets to grow our business and to expand existing facilities, such as projects that increase production from existing facilities or reduce costs, to the extent such capital expenditures are expected to increase our long-term operating capacity or operating income.

We are currently planning to increase maintenance and expansion capital expenditures at our Wyoming facility to both adequately maintain the physical assets and to increase our operating income and operational capacity needs at our Wyoming facility.

The table below summarizes our capital expenditures, on an accrual basis:

<i>(In millions)</i>	Three Months Ended March 31,	
	2019	2018
Capital Expenditures:		
Maintenance	\$ 1.0	\$ 2.8
Expansion	17.6	4.8
Total	<u>\$ 18.6</u>	<u>\$ 7.6</u>

The increase in expansion capital expenditures during the three months ended March 31, 2019 as compared to the same period ended 2018 was primarily driven by starting phase one of our co-generation facility. Looking ahead, we are finalizing our investment plans to not only improve the sustainability of our existing assets, but also to increase production levels up to approximately 3.5 million tons of soda ash per year. We intend to maintain our disciplined financial policy with a conservative capital structure by funding at least 50% of these investments with cash generated by the business.

Cash Flows Discussion

The following is a summary of cash provided by or used in each of the indicated types of activities:

<i>(In millions)</i>	Three Months Ended March 31,		Percent Increase/(Decrease)
	2019	2018	
Cash provided by (used in):			
Operating activities	\$ 5.6	\$ 37.3	(85.0)%
Investing activities	\$ (24.7)	\$ (4.0)	517.5 %
Financing activities	\$ 26.4	\$ (41.4)	(163.8)%

Operating Activities

Our operating activities during the three months ended March 31, 2019 provided cash of \$5.6 million , a decrease of 85.0% from the \$37.3 million cash provided during the three months ended March 31, 2018 , primarily as a result of the following:

- \$26.2 million of working capital used in operating activities during the three months ended March 31, 2019 , compared to \$9.1 million of working capital provided by operating activities during the three months ended March 31, 2018 . The \$35.3 million increase in working capital used in operating activities was primarily due to the \$22.4 million increase in due-from affiliates in 2019 compared to a \$9.3 million decrease in 2018 primarily related to incremental sales levels to ANSAC and timing of collections as well as timing of affiliate’s funding of pension benefits; in addition to
- an increase of 20.6% in net income of \$25.2 million during the three months ended March 31, 2019 , compared to \$20.9 million for the prior-year.

Investing Activities

[Table of Contents](#)

We used cash flows of \$24.7 million in investing activities during the three months ended March 31, 2019, compared to \$4.0 million during the three months ended March 31, 2018, for capital projects as described in “Capital Expenditures” above.

Financing Activities

Cash provided by financing activities of \$26.4 million during the three months ended March 31, 2019 increased by 163.8% over the prior-year cash used in financing activities, largely due to net borrowings of long-term debt of \$48.0 million during the three months ended March 31, 2019 compared to the \$17.5 million in net repayments during the three months ended March 31, 2018. The increase in net borrowings for the period is primarily related to funding of capital expenditures. Distributions paid during the three months ended March 31, 2019 of \$21.1 million was down 10.6% compared to the three months ended March 31, 2018.

Borrowings under the Ciner Wyoming Credit Facility were at variable interest rates.

<i>(Dollars in millions)</i>	As of and for the quarter ended	
	March 31, 2019	
Short-term borrowings from banks:		
Outstanding amount at period end	\$	147.0
Weighted average interest rate at period end ⁽¹⁾		4.07%
Average daily amount outstanding for the period	\$	125.5
Weighted average daily interest rate for the period ⁽¹⁾		4.12%
Maximum month-end amount outstanding during the period	\$	147.0

⁽¹⁾ Weighted average interest rates set forth in the table above include the impacts of our interest rate swap contracts designated as cash flow hedges. As of March 31, 2019, the interest rate swap contracts had an aggregate notional value of \$50.0 million.

Debt

See Part I, Item 1, Financial Statements - Note 4, “Debt” for table disclosure of our long-term debt outstanding as of March 31, 2019 and December 31, 2018.

Ciner Wyoming Credit Facility

On August 1, 2017, Ciner Wyoming entered into a Credit Agreement (“Ciner Wyoming Credit Facility”) with each of the lenders listed on the respective signature pages thereof and PNC Bank, National Association, as administrative agent, swing line lender and a Letter of Credit (“L/C”) issuer. The Ciner Wyoming Credit Facility replaces the former Credit Facility (“Former Ciner Wyoming Credit Facility”), dated as of July 18, 2013, by and among Ciner Wyoming, the lenders party thereto and Bank of America, N.A., as administrative agent, swing line lender and L/C issuer, as amended, which was terminated on August 1, 2017 upon entry into the Ciner Wyoming Credit Facility. This arrangement was accounted for as a modification of debt in accordance with Accounting Standards Codification (“ASC”) 470-50.

The Ciner Wyoming Credit Facility is a \$225.0 million senior unsecured revolving credit facility with a syndicate of lenders, which will mature on the fifth anniversary of the closing date of such credit facility. The Ciner Wyoming Credit Facility provides for revolving loans to fund working capital requirements, capital expenditures, to consummate permitted acquisitions and for all other lawful partnership purposes. The Ciner Wyoming Credit Facility has an accordion feature that allows Ciner Wyoming to increase the available revolving borrowings under the facility by up to an additional \$75.0 million, subject to Ciner Wyoming receiving increased commitments from existing lenders or new commitments from new lenders and the satisfaction of certain other conditions. In addition, the Ciner Wyoming Credit Facility includes a sublimit up to \$20.0 million for same-day swing line advances and a sublimit up to \$40.0 million for letters of credit. Ciner Wyoming’s obligations under the Ciner Wyoming Credit Facility are unsecured.

The Ciner Wyoming Credit Facility contains various covenants and restrictive provisions that limit (subject to certain exceptions) Ciner Wyoming’s ability to:

- make distributions on or redeem or repurchase units;
- incur or guarantee additional debt;
- make certain investments and acquisitions;
- incur certain liens or permit them to exist;
- enter into certain types of transactions with affiliates of Ciner Wyoming;

[Table of Contents](#)

- merge or consolidate with another company; and
- transfer, sell or otherwise dispose of assets.

The Ciner Wyoming Credit Facility also requires quarterly maintenance of a consolidated leverage ratio (as defined in the Ciner Wyoming Credit Facility) of not more than 3.00 to 1.00 and a consolidated interest coverage ratio (as defined in the Ciner Wyoming Credit Facility) of not less than 3.00 to 1.00.

The Ciner Wyoming Credit Facility contains events of default customary for transactions of this nature, including (i) failure to make payments required under the Ciner Wyoming Credit Facility, (ii) events of default resulting from failure to comply with covenants and financial ratios in the Ciner Wyoming Credit Facility, (iii) the occurrence of a change of control, (iv) the institution of insolvency or similar proceedings against Ciner Wyoming and (v) the occurrence of a default under any other material indebtedness Ciner Wyoming may have. Upon the occurrence and during the continuation of an event of default, subject to the terms and conditions of the Ciner Wyoming Credit Facility, the administrative agent shall, at the request of the Required Lenders (as defined in the Ciner Wyoming Credit Facility), or may, with the consent of the Required Lenders, terminate all outstanding commitments under the Ciner Wyoming Credit Facility and may declare any outstanding principal of the Ciner Wyoming Credit Facility debt, together with accrued and unpaid interest, to be immediately due and payable.

Under the Ciner Wyoming Credit Facility, a change of control is triggered if Ciner Corp and its wholly-owned subsidiaries, directly or indirectly, cease to own all of the equity interests, or cease to have the ability to elect a majority of the board of directors (or similar governing body) of our general partner (or any entity that performs the functions of the Partnership's general partner). In addition, a change of control would be triggered if the Partnership ceases to own at least 50.1% of the economic interests in Ciner Wyoming or ceases to have the ability to elect a majority of the members of Ciner Wyoming's board of managers.

Loans under the Ciner Wyoming Credit Facility bear interest at Ciner Wyoming's option at either:

- a Base Rate, which equals the highest of (i) the federal funds rate in effect on such day plus 0.50%, (ii) the administrative agent's prime rate in effect on such day or (iii) one-month LIBOR plus 1.0%, in each case, plus an applicable margin; or
- Eurodollar Rate plus an applicable margin.

The unused portion of the Ciner Wyoming Credit Facility is subject to an unused line fee ranging from 0.225% to 0.300% per annum based on Ciner Wyoming's then current consolidated leverage ratio.

At March 31, 2019, Ciner Wyoming was in compliance with all financial covenants of the Ciner Wyoming Credit Facility.

Revolving Credit Facility

On August 1, 2017, the Partnership entered into a Credit Agreement (the "Revolving Credit Facility") with each of the lenders listed on the respective signature pages thereof and PNC Bank, National Association, as administrative agent, swing line lender and an L/C issuer. The Revolving Credit Facility replaces the former Credit Facility, dated as of July 18, 2013, by and among the Partnership, the lenders party thereto and Bank of America, N.A., as administrative agent, swing line lender and L/C issuer, as amended (the "Former Revolving Credit Facility"), which was terminated on August 1, 2017 upon entry into the Ciner Resources Credit Facility.

The Revolving Credit Facility is a \$10.0 million senior secured revolving credit facility with a syndicate of lenders, which will mature on the fifth anniversary of the closing date of such credit facility. The Revolving Credit Facility provides for revolving loans to be available to fund distributions on the Partnership's units and working capital requirements and capital expenditures, to consummate permitted acquisitions and for all other lawful partnership purposes. The Revolving Credit Facility includes a sublimit up to \$5.0 million for same-day swing line advances and a sublimit up to \$5.0 million for letters of credit. The Partnership's obligations under the Revolving Credit Facility are guaranteed by each of the Partnership's material domestic subsidiaries other than Ciner Wyoming LLC ("Ciner Wyoming"). In addition, the Partnership's obligations under the Revolving Credit Facility are secured by a pledge of substantially all of the Partnership's assets (subject to certain exceptions), including the membership interests held in Ciner Wyoming by the Partnership.

The Revolving Credit Facility contains various covenants and restrictive provisions that limit (subject to certain exceptions) the Partnership's ability to (and the ability of the Partnership's subsidiaries, including without limitation, Ciner Wyoming to):

- make distributions on or redeem or repurchase units;
- incur or guarantee additional debt;
- make certain investments and acquisitions;

- incur certain liens or permit them to exist;
- enter into certain types of transactions with affiliates;
- merge or consolidate with another company; and
- transfer, sell or otherwise dispose of assets.

The Revolving Credit Facility also requires quarterly maintenance of a consolidated leverage ratio (as defined in the Revolving Credit Facility) of not more than 3.00 to 1.00 and a consolidated interest coverage ratio (as defined in the Revolving Credit Facility) of not less than 3.00 to 1.00.

In addition, the Revolving Credit Facility contains events of default customary for transactions of this nature, including (i) failure to make payments required under the Revolving Credit Facility, (ii) events of default resulting from failure to comply with covenants and financial ratios, (iii) the occurrence of a change of control, (iv) the institution of insolvency or similar proceedings against the Partnership or its material subsidiaries and (v) the occurrence of a default under any other material indebtedness the Partnership (or any of its subsidiaries) may have, including the Ciner Wyoming Credit Facility. Upon the occurrence and during the continuation of an event of default, subject to the terms and conditions of the Revolving Credit Facility, the lenders may terminate all outstanding commitments under the Revolving Credit Facility and may declare any outstanding principal of the Revolving Credit Facility debt, together with accrued and unpaid interest, to be immediately due and payable.

Under the Revolving Credit Facility, a change of control is triggered if Ciner Corp and its wholly-owned subsidiaries, directly or indirectly, cease to own all of the equity interests, or cease to have the ability to elect a majority of the board of directors (or similar governing body) of, Ciner Holdings or Ciner GP (or any entity that performs the functions of the Partnership's general partner). In addition, a change of control would be triggered if the Partnership ceases to own at least 50.1% of the economic interests in Ciner Wyoming or ceases to have the ability to elect a majority of the members of Ciner Wyoming's board of managers.

Loans under the Revolving Credit Facility bear interest at our option at either:

- a Base Rate, which equals the highest of (i) the federal funds rate in effect on such day plus 0.50%, (ii) the administrative agent's prime rate in effect on such day or (iii) one-month LIBOR plus 1.0%, in each case, plus an applicable margin; or
- Eurodollar Rate plus an applicable margin.

The unused portion of the Revolving Credit Facility is subject to an unused line fee ranging from 0.225% to 0.300% based on our then current consolidated leverage ratio.

At March 31, 2019, the Partnership was in compliance with all financial covenants of the Revolving Credit Facility.

WE Soda and Ciner Enterprises Facilities Agreement

On August 1, 2018, Ciner Enterprises, the entity that indirectly owns and controls our general partner, refinanced its existing credit agreement and entered into a new facilities agreement, to which WE Soda and Ciner Enterprises (as borrowers), and KEW Soda, WE Soda, certain related parties and Ciner Enterprises, Ciner Holdings and Ciner Corp (as original guarantors and together with the borrowers, the "Ciner obligors"), are parties (as amended and restated or otherwise modified, the "Facilities Agreement"), and certain related finance documents. The Facilities Agreement expires on August 1, 2025.

Even though neither the Partnership nor Ciner Wyoming is a party or a guarantor under the Facilities Agreement, while any amounts are outstanding under the Facilities Agreement we will be indirectly affected by certain affirmative and restrictive covenants that apply to WE Soda and its subsidiaries (which include us). Besides the customary covenants and restrictions, the Facilities Agreement includes provisions that, without a waiver or amendment approved by lenders whose commitments are more than 66-2/3% of the total commitments under the Facilities Agreement to undertake such action, would (i) prevent transactions with our affiliates that could reasonably be expected to materially and adversely affect the interests of certain finance parties, (ii) restrict the ability to amend our limited partnership agreement or the general partner's limited liability company agreement or our other constituency documents if such amendment could reasonably be expected to materially and adversely affect the interests of the lenders to the Facilities Agreement; and (iii) prevent actions that enable certain restrictions or prohibitions on our ability to upstream cash (including via distributions) to the borrowers under the Facilities Agreement. In addition, while the general partner's interest is not subject to a lien under the Facilities Agreement, Ciner Enterprises' ownership in Ciner Holdings, which directly owns the general partner, is subject to a lien under the Facilities Agreement, which enables the lenders under the Facilities Agreement to foreclose on such collateral and take control of the general partner if any of WE Soda or KEW Soda or certain of their related parties, or Ciner Enterprises, Ciner Corp or Ciner Holdings is unable to satisfy its respective obligations under the Facilities Agreement.

Contractual Obligations

During the three months ended March 31, 2019, there were no material changes with respect to the contractual obligations disclosed in our Annual Report on Form 10-K for the year ended December 31, 2018 filed with the SEC on March 8, 2019 (the “2018 Annual Report”).

Off-Balance Sheet Arrangements

See Part I, Item 1, Financial Statements - Note 10, Commitments and Contingencies - “Off-Balance Sheet Arrangements”, for additional details.

Critical Accounting Policies

There have been no other material changes in critical accounting policies followed by us during the three month period ended March 31, 2019 from those disclosed in the 2018 Annual Report.

Recently Issued Accounting Standards

Accounting standards recently issued are discussed in Item 1. Financial Statements - Note 1, “Corporate Structure and Summary of Significant Accounting Policies”, in the notes to unaudited condensed consolidated financial statements.

Non-GAAP Financial Measures

We report our financial results in accordance with generally accepted accounting principles in the United States (“GAAP”). We also present the non-GAAP financial measures of:

- Adjusted EBITDA;
- distributable cash flow; and
- distribution coverage ratio.

We define Adjusted EBITDA as net income (loss) plus net interest expense, income tax, depreciation, depletion and amortization, equity-based compensation expense and certain other expenses that are non-cash charges or that we consider not to be indicative of ongoing operations. Distributable cash flow is defined as Adjusted EBITDA less net cash paid for interest, maintenance capital expenditures and income taxes, each as attributable to Ciner Resources LP. The Partnership may fund expansion-related capital expenditures with borrowings under existing credit facilities such that expansion-related capital expenditures will have no impact on cash on hand or the calculation of cash available for distribution. In certain instances, the timing of the Partnership’s borrowings and/or its cash management practices will result in a mismatch between the period of the borrowing and the period of the capital expenditure. In those instances, the Partnership adjusts designated reserves (as provided in the partnership agreement) to take account of the timing difference. Accordingly, expansion-related capital expenditures have been excluded from the presentation of cash available for distribution. Distributable cash flow will not reflect changes in working capital balances. We define distribution coverage ratio as the ratio of distributable cash flow as of the end of the period to cash distributions payable with respect to such period.

Adjusted EBITDA, distributable cash flow and distribution coverage ratio are non-GAAP supplemental financial measures that management and external users of our consolidated financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess:

- our operating performance as compared to other publicly traded partnerships in our industry, without regard to historical cost basis or, in the case of Adjusted EBITDA, financing methods;
- the ability of our assets to generate sufficient cash flow to make distributions to our unitholders;
- our ability to incur and service debt and fund capital expenditures; and
- the viability of capital expenditure projects and the returns on investment of various investment opportunities.

We believe that the presentation of Adjusted EBITDA, distributable cash flow and distribution coverage ratio provide useful information to investors in assessing our financial condition and results of operations. The GAAP measures most directly comparable to Adjusted EBITDA and distributable cash flow are net income and net cash provided by operating activities. Our non-GAAP financial measures of Adjusted EBITDA, distributable cash flow and distribution coverage ratio should not be considered as alternatives to GAAP net income, operating income, net cash provided by operating activities, or any other measure of financial performance or liquidity presented in accordance with GAAP. Adjusted EBITDA and distributable cash flow have important limitations as analytical tools because they exclude some, but not all items that affect net income and net cash provided by operating

[Table of Contents](#)

activities. Investors should not consider Adjusted EBITDA, distributable cash flow and distribution coverage ratio in isolation or as a substitute for analysis of our results as reported under GAAP. Because Adjusted EBITDA, distributable cash flow and distribution coverage ratio may be defined differently by other companies, including those in our industry, our definition of Adjusted EBITDA, distributable cash flow and distribution coverage ratio may not be comparable to similarly titled measures of other companies, thereby diminishing its utility.

The table below presents a reconciliation of the non-GAAP financial measures of Adjusted EBITDA and distributable cash flow to the GAAP financial measures of net income and net cash provided by operating activities:

	Three Months Ended March 31,	
	2019	2018
<i>(In millions, except per unit data)</i>		
Reconciliation of Adjusted EBITDA to net income:		
Net income	\$ 25.2	\$ 20.9
Add backs:		
Depreciation, depletion and amortization expense	6.3	6.8
Interest expense, net	1.3	0.7
Equity-based compensation expenses	0.4	0.4
Adjusted EBITDA	\$ 33.2	\$ 28.8
Less: Adjusted EBITDA attributable to non-controlling interest	16.5	14.4
Adjusted EBITDA attributable to Ciner Resources LP	\$ 16.7	\$ 14.4
Reconciliation of distributable cash flow to Adjusted EBITDA attributable to Ciner Resources LP:		
Adjusted EBITDA attributable to Ciner Resources LP	\$ 16.7	\$ 14.4
Less: Cash interest expense, net attributable to Ciner Resources LP	0.6	0.3
Less: Maintenance capital expenditures attributable to Ciner Resources LP	0.5	0.9
Distributable cash flow attributable to Ciner Resources LP	\$ 15.6	\$ 13.2
Cash distribution declared per unit	\$ 0.340	\$ 0.567
Total distributions to unitholders and general partner	\$ 6.8	\$ 11.4
Distribution coverage ratio	2.29	1.16
Reconciliation of Adjusted EBITDA to net cash from operating activities:		
Net cash provided by operating activities	\$ 5.6	\$ 37.3
Add/(less):		
Amortization of long-term loan financing	—	(0.1)
Net change in working capital	26.2	(9.1)
Interest expense, net	1.3	0.7
Other non-cash items	0.1	—
Adjusted EBITDA	\$ 33.2	\$ 28.8
Less: Adjusted EBITDA attributable to non-controlling interest	16.5	14.4
Adjusted EBITDA attributable to Ciner Resources LP	\$ 16.7	\$ 14.4
Less: Cash interest expense, net attributable to Ciner Resources LP	0.6	0.3
Less: Maintenance capital expenditures attributable to Ciner Resources LP	0.5	0.9
Distributable cash flow attributable to Ciner Resources LP	\$ 15.6	\$ 13.2

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our exposure to the financial markets consists of changes in interest rates relative to the balance of our outstanding debt obligations and derivatives that we have employed from time to time to manage our exposure to changes in market interest rates, and commodity prices. We do not use financial instruments or derivatives for trading or other speculative purposes. Our exposure to interest rate risks, and commodity price risks is discussed in Part II, Item 7A of our 2018 Annual Report. There has been no material change in that information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation of the effectiveness of the design and operation of disclosure controls and procedures, under the supervision and with the participation of the Partnership's management, the Partnership's principal executive officer and principal financial officer have concluded that the Partnership's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act were effective as of March 31, 2019 to ensure that information required to be disclosed by the Partnership in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to the Partnership's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting ("ICFR")

There have not been any changes in the Company's internal control over financial reporting during the quarter ended March 31, 2019 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. We completed the implementation of a new Enterprise Resource Planning ("ERP") system as of January 1, 2019 that supports a significant portion of the Company's business, which resulted in certain changes to the Company's processes and procedures. The ERP implementation has not materially affected, nor is it reasonably likely to materially affect, the Company's ICFR.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

From time to time we are party to various claims and legal proceedings related to our business. Although the outcome of these proceedings cannot be predicted with certainty, management does not currently expect any of the legal proceedings we are involved in to have a material effect on our business, financial condition and results of operations. We cannot predict the nature of any future claims or proceedings, nor the ultimate size or outcome of existing claims and legal proceedings and whether any damages resulting from them will be covered by insurance. Our legal proceedings are discussed in Part I, Item 3 of our 2018 Annual Report. There have been no material changes in that information.

Item 1A. Risk Factors

In addition to the information set forth in this Report, you should carefully consider the factors discussed in Part I, Item 1A. “Risk Factors” in our 2018 Annual Report, which could materially affect our business, financial condition or future results. The risks described in this Report and our 2018 Annual Report are not our only risks. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchases of Equity Securities**

Period	Total Number of Units Purchased	Average Price Paid per Unit	Total Number of Units Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Units That May Yet Be Purchased Under the Plans or Programs
January 1 - January 31 ⁽¹⁾	6,023	\$ 22.16	—	—
February 1 - February 28	—	—	—	—
March 1 - March 31 ⁽²⁾	14,726	24.74	—	—
Total	20,749	\$ 23.99	—	—

⁽¹⁾ Of the 1,589 restricted common units and 9,003 performance units that vested on January 1, 2019, and converted to common units, 566 and 5,457 common units were purchased by the Partnership on January 1, 2019 at closing price of the Partnership’s common units on the NYSE on December 31, 2018, in satisfaction of certain employee tax withholding obligations.

⁽²⁾ Additionally, of the 30,498 units that vested on March 22, 2019, and converted to common units, 14,726 common units were purchased by the Partnership on March 22, 2019 at closing price of the Partnership’s common units on the NYSE on March 21, 2019, in satisfaction of certain employee tax withholding obligations

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Information regarding mine safety violations and other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K is included in Exhibit 95.1 to this Report.

Item 5. Other Information

Not applicable.

Item 6. Exhibits

Exhibit Index

Exhibit Number	Description
3.1	Certificate of Limited Partnership of Ciner Resources LP (formerly known as OCI Resources LP) dated April 22, 2013 (incorporated by reference to Exhibit 3.1 to the Registrant’s Registration Statement on Form S-1 (File No. 333-189838) filed with the SEC on July 8, 2013)
3.2	Certificate of Amendment of the Certificate of Limited Partnership of Ciner Resources LP (formerly known as OCI Resources LP) effective November 5, 2015 (incorporated by reference to Exhibit 3.1 to the Registrant’s Current Report on Form 8-K, filed with the SEC on November 5, 2015)
3.3	First Amended and Restated Agreement of Limited Partnership of Ciner Resources LP (formerly known as OCI Resources LP) dated as of September 18, 2013 (incorporated by reference to Exhibit 3.1 to the Registrant’s Current Report on Form 8-K, filed with the SEC on September 18, 2013)
3.4	Amendment No. 1 to the First Amended and Restated Agreement of Limited Partnership of Ciner Resources LP (formerly known as OCI Resources LP) dated as of May 2, 2014 (incorporated by reference to Exhibit 3.1 to the Registrant’s Current Report on Form 8-K, filed with the SEC on May 7, 2014)
3.5	Amendment No. 2 to the First Amended and Restated Agreement of Limited Partnership of Ciner Resources LP (formerly known as OCI Resources LP) dated as of November 5, 2015 (incorporated by reference to Exhibit 3.2 to the Registrant’s Current Report on Form 8-K, filed with the SEC on November 5, 2015)
3.6	Amendment No. 3 to the First Amended and Restated Agreement of Limited Partnership of Ciner Resources LP, dated April 28, 2017 (incorporated by reference to Exhibit 3.1 to the Registrant’s Current Report on Form 8-K, filed with the SEC on May 2, 2017)
3.7	Certificate of Formation of OCI Resource Partners LLC dated April 22, 2013 (incorporated by reference to Exhibit 3.3 to the Registrant’s Registration Statement on Form S-1 (File No. 333-189838) filed with the SEC on July 8, 2013)
3.8	Certificate of Amendment to the Certificate of Formation of Ciner Resource Partners LLC (formerly known as OCI Resource Partners LLC) effective November 5, 2015 (incorporated by reference to Exhibit 3.3 to the Registrant’s Current Report on Form 8-K, filed with the SEC on November 5, 2015)
3.9	Amended and Restated Limited Liability Company Agreement of Ciner Resource Partners LLC (formerly known as OCI Resource Partners LLC) dated as of September 18, 2013 (incorporated by reference to Exhibit 3.2 to the Registrant’s Current Report on Form 8-K, filed with the SEC on September 18, 2013)
3.10	Amendment No. 1 to the Amended and Restated Limited Liability Company Agreement of Ciner Resource Partners LLC (formerly known as OCI Resource Partners LLC) dated November 5, 2015 (incorporated by reference to Exhibit 3.4 to the Registrant’s Current Report on Form 8-K, filed with the SEC on November 5, 2015)
3.11	Amendment No. 1 to Ciner Resource Partners LLC 2013 Long-Term Incentive Plan (incorporated by reference to Exhibit 10.16 to the Registrant’s Annual Report on Form 10-K for the year ended December 31, 2018 filed with the SEC on March 8, 2019)

**Certification Pursuant to Exchange Act Rule 13a-14(a) or Rule 15d-14(a)
As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Kirk H. Milling, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Ciner Resources LP (the "registrant") ;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

MINE SAFETY DISCLOSURES

Section 1503 of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank"), contains reporting requirements regarding coal or other mine safety. We operate a mine in conjunction with our Green River, Wyoming facility, which is subject to regulation by the Mine Safety and Health Administration ("MSHA") under the Federal Mine Safety and Health Act of 1977 (the "Mine Act"), and is therefore subject to these reporting requirements. Presented in the table below is information regarding certain mining safety and health citations, orders and violations, if any, which MSHA has issued with respect to our operation as required by Dodd-Frank. In evaluating this information, consideration should be given to the fact that citations and orders can be contested and appealed, and in that process, may be reduced in severity, penalty amount or sometimes dismissed (vacated) altogether.

The letters used as column headings in the table below correspond to the explanations provided underneath the table as to the information set forth in each column with respect to the numbers of violations, orders, citations or dollar amounts, as the case may be, during the first calendar quarter of 2019 unless otherwise indicated. All section references in the table below refer to provisions of the Mine Act.

(1) For each coal or other mine, of which the issuer or a subsidiary of the issuer is an operator:

	(A)	(B)	(C)	(D)	(E)	(F)	(G)			(H)		
Mine or Operating Name	Section 104 S&S Citations (#)	Section 104(b) Orders (#)	Section 104(d) Citations and Orders (#)	Section 110(b) (2) Violations (#)	Section 107(a) Orders (#)	Total Dollar Value of MSHA Assessments Proposed (\$)	Total Number of Mining Related Fatalities (#)	Received Notice of Pattern of Violations Under Section 104(e) (yes/no)	Received Notice of Potential to Have Pattern Under Section 104(e) (yes/no)	Legal Actions Pending as of Last Day of Period (#)	Legal Actions Initiated During Period (#)	Legal Actions Resolved During Period (#)
Ciner Wyoming LLC	6	—	—	—	—	\$ 5,557	—	no	no	1	—	—

- (A) The total number of violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a coal or other mine safety or health hazard under section 104 of the Mine Act for which the operator received a citation from MSHA.
- (B) The total number of orders issued under section 104(b) of the Mine Act.
- (C) The total number of citations and orders for unwarrantable failure of the mine operator to comply with mandatory health or safety standards under section 104(d) of the Mine Act.
- (D) The total number of flagrant violations under section 110(b)(2) of the Mine Act.
- (E) The total number of imminent danger orders issued under section 107(a) of the Mine Act.
- (F) The total dollar value of proposed assessments from the MSHA under the Mine Act, regardless of whether such proposed assessments are being contested or were dismissed or reduced prior to the date of filing the periodic report.
- (G) The total number of mining related fatalities.
- (H) Any pending legal action before the Federal Mine Safety and Health Review Commission involving such coal or other mines. With respect to those legal actions:
 1. Contests of citations and orders referenced in Subpart B of 29 CFR part 2700: One
 2. Contests of proposed penalties referenced in Subpart C of 29 CFR part 2700: One (see referenced in H1)
 3. Complaints for compensation referenced in Subpart D of 29 CFR part 2700: None
 4. Complaints of discharge, discrimination or interference referenced in Subpart E of 29 CFR part 2700: None
 5. Applications for temporary relief referenced in Subpart F of 29 CFR part 2700: None
 6. Appeals of judges' decisions or orders to the Federal Mine Safety and Health Review Commission referenced in Subpart H of 29 CFR part 2700: None

- (2) A list of such coal or other mines, of which the issuer or a subsidiary of the issuer is an operator, that received written notice from MSHA of (A) a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of coal or other mine health and safety hazards under section 104(e) of the Mine Act, or (B) the potential to have such a pattern.

NONE

- (3) Any pending legal action before the Federal Mine Safety and Health Review Commission involving such coal or other mine.
